In re: Application Ser. No. 10/601,029

Filed: 06/20/2003

Examiner: William L. Oen

Art Unit: 2855

RESPONSE TO EX PARTE
QUAYLE OFFICE ACTION

Commissioner for Patents
Alexandria, VA 22313-1450

Dear Sir:

In response to the Ex Parte Quayle Office Action mailed September 21, 2004, enclosed is a substitute specification, including the claims and Abstract.

With reference to the telephone interview between the undersigned and Examiner Oen held October 14, 2004, the applicant's file copy of the specification as originally filed does not have the typographical defects noted in the outstanding Office Action: viz., the missing e syndrome. Consequently, the undersigned is precluded from complying with that portion of the Office Action requiring that a marked up copy of the original specification be submitted showing deletions and additions. The accompanying substitute specification contains no new matter.

However, the title page has been changed as noted on the accompanying marked up copy to correct the street address of the inventor.

Since this application is now in condition for allowance, the Examiner is respectfully requested to pass this case for issue.

Accompanying this response is a notice of change of address of the undersigned. Please conduct all future correspondence in this case to the new address. If telephone contact should be required, please note the new telephone number

Respectfully Submitted,

Warren P. Kujawa
